

# RISE UP BE UNION

As union members, we come together to fight for the wages, rights, and benefits our families need.

Corporate CEOs and politicians like Rauner want to take these things away – and to do that they are attacking our union. **They and the groups they support are behind court cases like Janus v. AFSCME that would weaken our union – in the workplace, and in government.** We must continue the work of building a more powerful union.

They are attacking public employees and our union by:

- 1) Taking away workers' rights to organize.
- 2) Making "right to work" the law for all public employees.
- 3) Trying to convince workers that they would be better off if they were not union members.

With a Union:	Without a Union:
<ul style="list-style-type: none"> <li>✓ We bargain for better health insurance.</li> </ul>	<ul style="list-style-type: none"> <li>○ Less than half of non-union workers have quality health insurance.</li> </ul>
<ul style="list-style-type: none"> <li>✓ We have guaranteed pensions. 76% of union workers have pensions.</li> </ul>	<ul style="list-style-type: none"> <li>○ Only 16% of non-union workers have pensions.</li> </ul>
<ul style="list-style-type: none"> <li>✓ We have rights and protections guaranteed by our contracts.</li> </ul>	<ul style="list-style-type: none"> <li>○ Non-union workers are at-will employees with few rights and can get fired for no reason.</li> </ul>
<ul style="list-style-type: none"> <li>✓ We use our collective power to win for our families and communities.</li> </ul>	<ul style="list-style-type: none"> <li>○ Non-union workers stand alone.</li> </ul>

We will not be tricked by their lies. We will make sure we are **ALL** full union members. Fair share "fee-payers" need to join the union.
