

HERE'S HOW WE BUILD A STRONGER UNION

Have a one on one conversation with every co-worker:

- ✓ Think about what is under threat from politicians and corporations who want to take away our rights.
- ✓ If we all stick together in our union, we'll have more power to protect our contract and push for improvements.
- ✓ That's why we're signing up on union cards that protect our rights!

It's easy as 1-2-3-4...

1. Fill out the top section of the card with all your information.
2. Sign, twice, the middle section to keep your membership active and contribute dues to our union.
3. The bottom section is to contribute to COPE, our political fund created for working people to have a strong voice in politics.
4. Don't forget to sign the card twice!

Check the Membership Card

- Does the signature match the name on the card?
- Is the name of the facility listed?
- Is all the writing legible?
- Is the personal email and cell phone information correct?

COPE Sign-up

- Did you talk to your co-worker about the importance of signing up for COPE?
- In order to rebuild the American Dream in Illinois and Indiana, we must build our political power. We need to elect and hold accountable public officials who support issues that are important to members.

Submit the Card

- Print your name in the back of the card.
- Keep the paper copies of the cards you sign and give them to your union organizer.
- Your union organizer will turn them in to be filed securely.

Congratulations! By committing our co-workers one-by-one to building a stronger union, we're building the power we need to get what we want. If you need help having these conversations call (312) 787-5868 or email info@SEIU73.org.
