

## COPE IS HOPE!

COPE is our political fund created for working people to have a strong voice in politics.

In order to rebuild the American Dream in Illinois and Indiana, we must build our political power and both support and hold accountable elected officials who will advocate in support of the issues that are important to members.

COPE drives change! Join thousands of other SEIU Local 73 members to fight for government which protects our rights and meets the needs of the communities in which we live.

Make your recurring contribution to the Committee on Political Education (COPE) today.

## Investing in our political power pays off.

- ✓ After more than two years of political sparring, missed payment to creditors and plunging credit ratings, **Illinois has a budget.**
- ✓ We mobilized an historic campaign to elect Barack Obama twice.
- ✓ Raised wages for Direct Care workers by \$0.75 cents an hour in the 2018 Illinois budget.
- ✓ We passed the Affordable Care Act.
- ✓ Defeated unconstitutional attempts to reduce our pensions.

**The corporations and the wealthy spend a lot against us. You decide if you want to fight back.**

**Join us. We are stronger together!**
