

The Committee on the Future

The *Committee on the Future* is made up of rank-and-file Local 73 members that are looking at the suspended Constitution and By-laws, finances, and how to build and exercise member strength. This committee is as diverse in its make up as Local 73's membership, representing the many different sectors, locations, and work sites that make up Local 73. The members have chosen to serve on three (3) subcommittees to examine and make recommendations on the Local's Constitution & Bylaws, Finances and Member Strength program. The outcome of their discussions and specific recommendations will result in a proposal that will be presented to the membership for their approval. Meet the committee members:
