

DON'T BE FOOLED!

SEIU Local 73 members began receiving mail from the Illinois Policy Institute about ending their union membership. Don't fall for it!

Illinois Policy is an anti-union organization that's been funded by billionaires like the Koch Brothers and Bruce Rauner. Their wealthy donors know that unions keep them from becoming even richer.

They know that without members, there is no union. Without our union, our contracts go away, allowing billionaires and corporations to eliminate our guaranteed pay raises, healthcare coverage, and pensions.

Let's send a clear message to Illinois Policy Institute and their billionaire funders: We're sticking with our union! Tear up and recycle their letter.
